BSiB Progress Report 63 – October 2026

The Bee Hive roundabout has had several tidy ups and replants and the hive is now straight again. Sadly the bee solar lights are no more. Couple of years ago I did a bee course and it would seem our roundabout is famous! Who would Bee-lieve it

The Manor Farm roundabout & corner have also had several tidy ups and the vast majority of the new shrubs survived the heat wave. I plan to get the gate and post back in place before Remembrance so I have somewhere to secure the flags.

Herb Planters

We managed to find a window between the blazing sun and the pouring rain and have repaired & repainted the herb planters.

Considering that they are made from pallet wood and went in in April 2015 they have done well.

BSiB Progress Report 63 – October 2026

I am not sure where the break in communication was last time but we are very low on funds, please may we have the remainder of our grant transferred to our account?

Bradley Stoke in Bloom financial report 19/10/26
