Bradley Stoke Town Council will work to promote and develop the interests and diversity of this vibrant community

# View from the Chair/Mayor

**Bradley Stoke is an incredible place. Once classed as Europe's largest new town built with private investment situated north of Bristol, Bradley Stoke is now transforming itself to be one of the wealthiest towns in England in terms of infrastructure, per capita income and human resources development.** Our neighbourhoods are increasingly becoming the powerhouse of the socio-cultural and industrial legacy of the West of England.

I am honoured and utterly humbled to be elected as Mayor of this lively and vibrant town, which has become more diverse and international. It is really a fantastic role, giving the opportunity to meet so many different people, groups and organisations, who do so much to support and further develop this vibrant community.

There have been so many highlights during this year, which have helped me to be able to deliver on my aims as Mayor. Due to constraints of page space, I won't be able to list out all of it. But will mention a few. I always admire diverse viewpoints on issues and like to engage everyone interested in community matters. I wish to promote a wider sense of inclusion amongst our residents regarding our town's development and community matters; and want to encourage more community cohesion. Students at some of our Schools comes from over 26 language groups. Our Schools are also achieving excellent results, thanks to the inspirational teaching as well as the commitment of our youngsters and their families.

This has been another fruitful year for Bradley Stoke. As ever, the Community Festival organised by the Town Council in June 2019 verve from strength to strength. With over 10,000.00 people attending over the course of the weekend, despite the inclement weather on Friday and Sunday afternoon, it was brilliant. As I strolled around the various stands, it was fantastic to hear so many wonderful comments about how much they loved where they lived and what a wonderful atmosphere there is in our Town. During the Festival, I had the pleasure of handing out medals to 600 runners of the Bradley Stoke 10K Run as well as honours for the Young Children's Football Tournament participated by 14 schools and 150 children, besides handing over mementos at the Cricket Tournament, Skate Park competitions and at the Bowls Club. I also participated in the Jubilee Green Faith Service as well.

Bradley Stoke's Annual Fireworks during November went off well as a great family-friendly community event with a huge bang and again was incredibly well attended with record numbers. The Town also gathered together on the Remembrance Day to commemorate the selfless contributions of the service personnel who laid their lives in the two World Wars and other conflicts, and I laid the wreath at the memorial on behalf of the Council.

I am delighted to recall that owing to our intense requests, an amount of £250,000 has been earmarked to fund enhancement works at the Three Brooks Lake in Bradley Stoke. I am also glad to update that the re-development works at the Brook Way Activity Centre Site has been completed. It will be officially opened to the public soon. Currently, the council is also putting in efforts to address the traffic issues of our roads. To resolve this issue on a long-term basis and to cope up with the increased traffic, I personally proposed to widen the Bradley Stoke Way into a four-lane road.

Myself being the Member of the Avon and Somerset Police Scrutiny Panel and the Police Strategic Advisory Panel, I can assure that Bradley Stoke is one of the safest and strongest areas in the region. I felt meaningful to be a participant signatory of the letter sent to the 21,000 non-UK EU citizens living in this area,

through which we extended hands of support to our European brethren in our neighbourhoods, assuring them help in the wake of dilemma in the EU-UK negotiations.

I have tried to support and attend as many events and meetings as possible during my term as Mayor (which has not quite finished yet) as I'm passionate about our community. I had the privilege of being the guest of honour of many events, receptions and engagements not only at the local level, but also at the regional and national levels. I also attended community events in the USA, UAE and India too. There is plenty going on! Thanks to all the invitations. I have visibly felt the blend of diverse cultures and the sense of fraternity amongst all.

For the first time in our history, the Indian High Commission's Consular Camp was arranged at Bradley Stoke as part of the Community Cohesion Campaign and it was well attended. We have so many caring people and voluntary organisations looking out for the town and the people. The Town Council regularly give grants to groups based in Bradley Stoke to encourage this work to continue.

The Senior Citizens Networking Tea party on the 24th of April is my humble initiative to tackle the issues of social isolation and loneliness that affect many in this town. I am also pleased to announce that a Carnival Committee has been formed and many events are being planned to take place in the week leading up to the May Bank Holiday celebrating VE Day. Please come and join in.

What a Town, we even have our own Community Radio Station broadcasting live on 103.4 FM and the Green Gym and the Bradley Stoke in Bloom, which has recently secured Royal Horticultural Society's Most Outstanding Award, making our green areas greener, and so many caring residents endlessly volunteering their time in so many wonderful community groups.

I would also like to thank Cllr John Ashe, Cllr Roger Avenin and Cllr Brian Hopkinson as the standing committee chairs for the support they have offered me during my term in office and their work running the committees. I really do believe that this administration has worked extremely hard to ensure Bradley Stoke benefits from superior services, cost effective practices and sensible decisions, making it a benchmark of the region and I will leave it up to the committee chairs to further expand.

The Mayor's Charities for this year were the Great Western Air Ambulance, the National Autistic Society, and the Blood and Organ donation campaign. Thanks for all your support to those very worthy causes.

Finally, I would like to say a big thank you to all the councillors who have supported me over this last year together with our Town Clerk, and the office, land and leisure staff whom I cannot praise enough. Without this commitment, we couldn't action the business we need for the town. They are in the front line of most of what goes on in the town and work cheerfully to keep the show on the road.

It has truly been a pleasure to serve you as Mayor and thank you to all who contributes to make our community stand out.

Wishing you all a good time,

**Councillor Tom Aditya  
Mayor of Bradley Stoke**

## Leisure, Youth & Amenities Committee Report 2019/20

Once again in 2019/20 Bradley Stoke Town Council has been fully supportive of local groups and clubs with subsidies provided for a vast range of diverse activities.

We fully expect that the general public will support such generosity and appreciate the need for such a range of events and group activities which enhance the character of our town.

The total financial support we have provided to groups in this year amounted to over £32K and is dispensed through Grant Aids, Youth Grant Aids, Larger Grant Aids and through Service Level Agreements. Also funding for the popular Bradley Stoke Festival is included within this amount.

Among the activities supported as can be seen from the attached table are sport including Cricket and Football (both men's and women's), Running clubs and hockey, communication through Bradley Stoke Radio, ecology via the Bradley Stoke Conservation Group and diversity with grants to such as the South Glos Chinese Association. These are but a few of the groups/clubs we have espoused.

I do however wonder if the public are aware of the wide range of interests that are on offer and would urge them to consider joining any groups that presents a particular interest to them. The possibility of initial funding also applies to any residents who might wish to form a new group/club where a gap might exist.

As you will be aware we do have 3 main sites which are well equipped to host groups and their associated activities. This is more than most towns have. Even with this though there are some groups notably Bradley Stoke Scouts who with an absolutely huge demand for places would benefit from even larger premises.

We do however sometimes receive requests for funding from groups outside Bradley Stoke and must balance these requests as virtually all of our funding is provided by Bradley Stoke council tax payers for the benefit local residents. In instances where we have joint enterprises with other Towns/parishes which also benefit our residents we are generally content to fund our fair share of these.

At a time when Bradley Stoke has been given such a poor deal at the hands of the Local Planning Authority it is heartening to see that this element of town activity is working so well. I would say that activity in Bradley Stoke is wide ranging and generally thriving and accordingly as a council representative I recommend this report to all residents.

**Councillor Roger Avenin**  
**Chair of Leisure, Youth & Amenities Committee**

Lifeskills	500.00
1st Bradley Stoke Scout Group	125.00
Scratch Code 4 Kids	499.98
<b>TOTAL</b>	<b>2,624.98</b>

# Finance Committee Report 2019/20

I have had the honour to have chaired the Finance Committee for the second consecutive year. I would like to thank my fellow committee members, Town Council officers and employees for helping to ensure that Bradley Stoke Town Council has been managed in an efficient business like fashion and within budget.

The Finance Committee meets six times a year and we make decisions and recommendations to Council on all financial and policy matters. One of our main responsibilities is ensuring that Town Council spending is properly regulated and stays within our budget targets and this has been substantiated by clear audits for a number of years.

The main source of revenue for the Town Council is the precept - the Town Council's share of your South Glos council tax bill. In 2010/11 this was £113.50 per annum and this year is £115.78 pa which is a rise of only 2% in total over 10 years, which if taken on an average would equate to 0.2% increase per year over 10 years. This is well under the annual cpi rate of inflation, which if taken on average would equate to a 2.28% increase per year over the 10 years.

Unfortunately this coming year 2020/21 we will have to increase the precept by 1% to £116.94 which works out at a total cost of 32 pence per day. We base our future precept rate on budget

estimations given to us by South Glos Council. They predicted that we would have 7,240 band D houses paying the full council tax, but it transpired that there were 266 less households paying the full amount owing to various rebates that they were able to claim and so our income was £30,797.48 less than budgeted for. This rise, however, is far less than some Town Councils in South Glos. You may have read in the media of one putting their precept up by 17% and another by an astonishing 35%!

Please be assured that we will continue to supply the services you require at the best possible value. These services are advertised on the Town Council web site, but one that you may not be aware of, is our free graffiti removal service from private premises. All you need to do is contact us and sign a disclaimer (or the landlord) and we will remove the graffiti free of charge.

We run three activity centres located at Baileys Court, Brook Way and the Jubilee Centre. The council strives to keep these affordable especially for local community groups and clubs when compared with other local providers. Although this does mean that the facilities are partly funded by the local community through the precept, our aim is to further support the development of the local residents and their activities.

I have no doubt that Bradley Stoke will have another successful year in 2020/21.

**Councillor John Ashe**  
**Chair of Finance Committee.**

## 2019/20 Income (as at 12th February 2020)

- BSTC/Non Activity Centre Activities £1,333.33
- Baileys Court Activity Centre £60,024.07
- Youth & Other External Grant Funding £11,587.15
- Bank Interest £2,141.49
- Bradley Stoke Jubilee Centre + Projector etc £51,279.64
- Precept £798,998.00
- Brook Way Activity Centre £18,883.71
- Local Council Tax Rate Grant £2,347.00

## Comparison of Actual 2019/20 Expenditure against Annual Budget (as at 12th February 2020)

The above charts are based upon provisional pre-audit and pre-year end figures which were correct as at 12th February 2020, but exclude the remainder of February, and final year end expenditures to 31st March 2020 and accruals/pre-receipts and other year end audit adjustments. Finalised figures will be available after the audit papers have been produced and these will be placed onto the website at the end of June 2020.

# Planning & Environment Committee Report 2019/20

**At the time of writing my Chairman's statement, this planning committee's year is not over yet. It was last May that myself and the following Councillors were elected by the residents of Bradley Stoke Keith Cranney, Terri Cullen, Fabrizio Fazzino, Elaine Hardwick, Michael Hill, Ben Randles, Ed Rose and Andy Ward.**

All of these colleagues volunteered to serve on this planning committee and the following two Councillors Tom Aditya (ex-officio, Chair of Council) together with Tony Griffiths (ex-officio, Vice-chair of Council) have attended meetings to help ensure that the best interests are served for Bradley Stoke Residents.

The year got off to a reasonable start as the application for the Willow Brook expansion to incorporate two large takeaways situated too close to many of our residents properties had been turned down after a gruelling campaign by local residents and the help of South Gloucestershire Councillors from both Bradley Stoke and other areas in South Gloucestershire. However despite this incredible support, the Willow Brook were able to secure the permission through an appeal which they had lodged with the planning inspector.

We have had many, many applications pass through our Committee on which we have made recommendations to South Gloucestershire Planners on how we feel about them. As residents of Bradley Stoke, please be aware that although our Committee cannot not turn

down or accept planning applications, we are able to sometimes influence outcomes. Our aim is to help our residents whenever we can.

Our environment is also hotting up and this Committee have been attempting to do our bit. You will have seen the flowering grasses replacing some of the short cut grass in many areas. Yes, many want to retain the look of well mown grass, however these grasses now being put in place help promote the valuable butterflies and insects which help to promote biodiversity at the same time as lessening carbon emissions by regular machine cuttings and, to many residents eyes, beautifying many of our areas.

Due to the regularity of planning applications needing to be checked, our Committee meets more than others, being at least once a month. The public is always welcome to come and there is an opportunity at the beginning of each meeting for you to raise concerns and or make suggestions. I have been very pleased to have been selected by members of the committee to serve as Chair of Planning this year and I have tried to bring my experience of being a member of South Gloucestershire planning committees over the previous 12 years, having initially become a District Councillor back in 2007.

Yours sincerely

**Councillor Brian Hopkinson**  
**Chair of Planning & Environment Committee**

## Youth Work in Bradley Stoke: 2019/20

Overview: It has been another positive year with Bradley Stoke Town Council continuing to support the delivery & development of various Youth Work programmes & projects. The different strands of our work have had a positive impact and enabled us to make & maintain contact with a wide range of children & young people. Our different Youth Work strands have included our Girls Project, Skatepark and Detached sessions, various Events & Offsite Activities and One to One support work.

We have continued to enhance & develop our extremely popular Skatepark and the adjoining and recently expanded youth building: latest works have involved improved paving & enabling wheelchair accessibility. We are currently in the process of fully equipping the space & recruiting additional part time youth work staff. When fully staffed, we will be able to open more regularly & organise additional events & Youth Work projects.

**Youth Work funding:** The Town Councils core commitment to Youth Work has continued to be a vital factor in helping to enable the attraction of significant additional external funding. Key to the Town Councils ongoing commitment is the employment of a professionally qualified Youth Development & Participation Worker (YD&PW) & this has enabled BSTC to forge closer partnership links. BSTC continue to be active members of SG Youth Work Partnership & this has enabled us to secure an additional £30k over 3 years. The YD&PW also continues to strategically lead on the development, co-ordination & delivery of our various youth projects & programmes, as well as attracting other funds, sponsorship from local businesses & linking with other organisation, for example, the food waste recycling project (Foodshare).

**Youth Work staffing & young volunteers:** We are engaging in further recruitment of part time Youth Work staff who will be able to provide extra capacity for additional Youth Work sessions, including staffing our annual firework display. The new converted containers at the skatepark & expanding the reach & frequency of our Detached/ Street Youth Work. In addition, young people continue to make a vital contribution, including volunteering at the skatepark events & other sessions & as stewards at

**Our skatepark:** Our skatepark is now widely regarded as one of the best in the South West & we continue to receive excellent reviews & feedback about the inclusive nature of the design & how it accommodates all skate park disciplines, abilities & ages. It was initially perceived by some as a facility just for teenagers, however, the truth continues to be very different as the park continues to be used by a wide age range (3 to 53 year olds). We continue to maintain & enhance the landscape around the park, often through the ongoing efforts of local volunteers of all ages. We believe we have created a space that is welcoming to skatepark users, spectators & parents of younger users & also those who use it as a safe space to associate & meet friends.

**Youth Work sessions at the skatepark:** the skatepark is one of the locations we carry out regular Youth Work sessions & the expanded Youth Building (converted containers) have proven to be an extremely useful resource for both weekly sessions & for events & competitions. Our aspiration to create a weather proof Youth Work space has therefore been achieved & continues to evolve.

**Other Youth Work sessions & projects:** as well as the skatepark sessions, we have continued to deliver regular Detached/ Street sessions, including sessions with a sports focus at Jubilee hardcourts. Our weekly Girls Project sessions have become increasingly popular over the last year & we have organised several trips & are planning multi activity residential later this year. We are also planning further large scale community Art projects to follow on from recent successes.

**Events & competitions:** During our annual community festival, we repeated our successful formula of two full days of activities for children & young people. During the Saturday, on the main festival site, we had the ever popular 'have a go' street art workshops, plus pro rider demos & 'have a go' sessions on a portable skatepark half-pipe. On the Sunday we moved to the skatepark to hold our annual festival competitions, pro rider demos & circus skills workshops. Attendance was again in the hundreds, however, shortly after the first rounds of competition, the rain decided to move in and the day was a wash out. However, again, the notable thing for both events, was the fantastic volunteering effort of children & young people, both in organising the events & helping them happen on the day.

**Youth democracy:** BSTC believes that all youth projects & programmes should develop a strong youth democracy component & enable young people to have a greater say in decision making & in the shaping of youth provision as well as other local services. We therefore aim to make young people feel more valued, have a sense of ownership & become more active citizens. As highlighted previously, the building of our skatepark & the continued ownership & involvement of young people, is an excellent example of the benefits of young people having high level involvement as active citizens

& of BSTC adopting the principal outlined in the national document 'Positive for Youth' (2011):

***"Involving young people does not only lead to better decisions & a greater sense of ownership by young people... It also sends a clear message about the valued & positive place of young people in their community".***

**The vision moving forward:** is to maintain and develop a range of youth projects and programmes, with a particular emphasis on young people's involvement and having their voices heard.

Over the next five years BSTC therefore plans to:

- Continue to develop a range of youth work projects that are shaped by young people's opinions and in response to their needs.
- Continue to support and encourage young people's participation in local decision making.
- Continue to explore and secure funding and in-kind support from various funding streams and organisations.
- Create a professional youth work delivery framework.
- Manage and support staff and partner agencies and encourage reflective professional practice.
- Continue offering and developing a range of youth projects that enable young people to have a voice, including the aspiration of working towards a local Youth Forum.
- Continue to enable and develop ways for local youth democracy projects to link to existing council decision making structures, including working groups, committees, reports as appropriate.
- Provide youth democracy training and support to local young people
- Continue to support young people's ownership of the skatepark and their involvement in future developments, organising events, etc.
- Continue to enhance local partnerships and explore other 'umbrella' models for effective youth work delivery.
- Create a local charter for young people
- Now a youth building has been achieved, to continue to enhance the space and look to develop other associational spaces for young people and the wider community.
- Develop and strengthen young people's links to the local media as a way of enabling their voices to be heard.
- Develop and maintain a range of partnerships with local groups, schools and businesses
- Identify new projects and to support existing projects.

**Graham Baker**  
**Youth Development & Participation Worker**

# Avon & Somerset Constabulary

## - Bradley Stoke Beat Team Report

**The Bradley Stoke Neighbourhood team is made up of PC Claire Fletcher and PC Jamie Shiels. PCSO Hannah Hall and PCSO James Allen also make up the team. However both Hannah and James have recently been successfully in the application to join as police officer and are to leave us soon. We wish them every success in the future role. New PCSO's will join the team in the near future.**

The last year has seen work between the police, local authority, schools and other local partners to deal with outbreaks of Anti-social behaviour around Bradley Stoke, these were mainly reported around the skate park and the Jubilee Centre. These areas are very popular with the younger generation, the vast majority of whom act and behave themselves very well, however there is a small minority which have caused issues at these locations. I know that the Parish Council have done a lot of good work at these locations, especially the Skate Park. The local authority, after being asked by the police, installed a CCTV camera near the Jubilee Centre which had a positive impact in the summer months, when we tend to see a spike in anti-social behaviour.

One of the key roles of your local Beat team is to deal with long running issues within the community, where they tend to cause a drain on police resources and other emergency services. The Beat team look to find a solution to these issues so that the response teams can be freed up to deal with more pressing incidents. The use of Community Protection Notices and Criminal Behaviour Orders are two of the ways in which we can deal with ongoing issues. The use of these in Bradley Stoke have recently seen a male sent to prison for breaching a Criminal Behaviour Order.

We continue to work closely with the schools in Bradley Stoke and PC Fletcher in particular has done a lot of work with Bradley Stoke Senior School. Working closely with the Student support officers.

We have held a number of Bike marking events at the Willow Brook Centre and the amount of bike thefts in Bradley Stoke has dropped markedly. We encourage everyone to purchase a good bike lock if they are going to leave their bike in public areas.

We continue to hold regular Beat surgeries at the Willow Brook Centre and PC Fletcher has her office based there. Although this is not staffed 24/7.

You can get in touch with us through our website [www.avonandsomerset.police.uk](http://www.avonandsomerset.police.uk) or phoning on **101**.

You can also keep up to date with what's happening through our beat page by simply typing in your post code.

We also attend the local Community Engagement Forums. You can find out when the next meeting is on by visiting [southglos.gov.uk](http://southglos.gov.uk). If you have an issue which you wish to raise.

As per previous years we are always keen to support local events such as the Bradley Stoke festival and Remembrance parade.

Bradley Stoke remains a safe place to live, work and visit and is a low crime area and I pleased to say that reported crime in Bradley Stoke is lower than it was this time last year. local contact details <https://www.avonandsomerset.police.uk/services/watch-community-schemes/neighbourhood-watch-scheme/>.
